

5 free infographics tool we can use for our work

INFOGRAPHICS

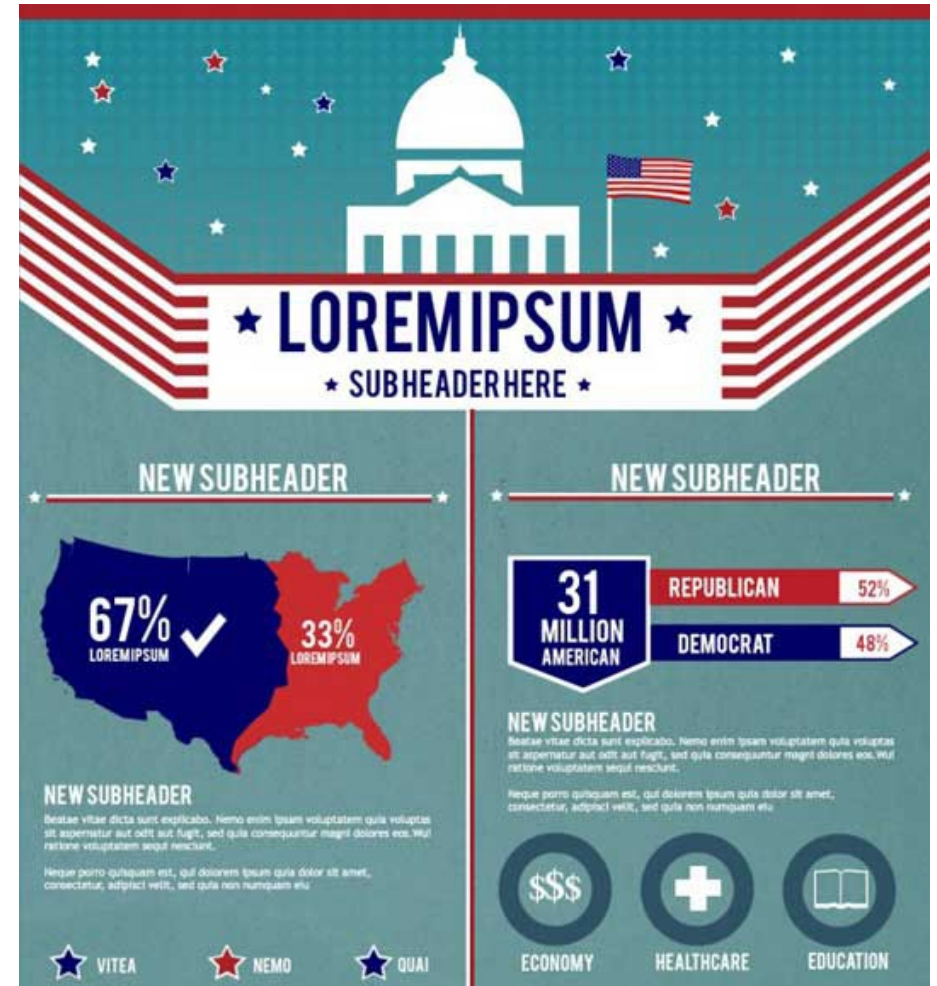

1

PIKTOCHART.COM

Piktochart enables you to turn boring data into engaging infographics with just a few clicks.

Piktochart's customizable editor lets you do things like modify colour schemes and fonts, insert pre-loaded graphics and upload basic shapes and images.

There's a free version offering three basic themes

2

INFOGR.AM

Infogr.am is a great free tool which offers access to a wide variety of graphs, charts and maps as well as the ability to upload pictures and videos to create cool infographics.

Customising the data that makes up the infographic takes place in an Excel style spreadsheet and can easily be edited, watching the software automatically change the look of the infographic to perfectly represent your data.

3

VISUAL.LY

Visually is one of the most popular tools to develop any type of infographics. Hundreds of free templates, other stuffs like presentation, e-book and even videos are available that helps you create the interactive infographics

4 EASEL.LY

This free web-based infographic tool offers you a dozen free templates to start you off, which are easily customisable.

You get access to a library of things like arrows, shapes and connector lines, and you can customize the text with range of fonts, colours, text styles and sizes. The tool also lets you upload your graphics and position them with one touch.

5

CANVA.COM

Canva is a graphic design tool for developing infographics and is a great tool for designing images. In other words, you can say that Canva can make anyone a professional images designer without any experience or skills.

Empowering the
world to design.

THANK YOU
