

# Conflict Incident Monthly Tracker

## Delta State: July-August 2016

### Background

This monthly tracker is designed to update Peace Agents on patterns and trends in conflict risk and violence, as identified by the Integrated Peace and Development Unit (IPDU) early warning system, and to seek feedback and input for response to mitigate areas of conflict.

### Patterns and Trends

#### May-July 2016

According to Peace Map data (see Figure 1), there was a decrease in conflict fatalities in Delta state in July. Incidents during the period included militancy, communal conflict, criminality and mob violence.

### Recent Incidents or Issues, August 2016

Incidents reported in August included militancy, violent criminality, communal violence, and protests.

**Militancy and Vandalism:** Sixteen soldiers under the military task force code named 'Operation Crocodile Smile' were reportedly killed by militants in Ethiope West. **Communal Violence:** A fatality and several missing persons were reported due to a clash between Enwhe and Igbiide communities in Isoko South over a disputed land. There was also tension in Oleh, Isoko South, following the bombing of the Isoko Development Union (IDU) secretariat by suspected youths.

**Protests:** During the month, protests were reported in Warri South-West, Ethiope West, and Bomadi. In Ugborodo in Warri South-West, the premises of an international oil company were besieged for three days over employment opportunities for the locals.

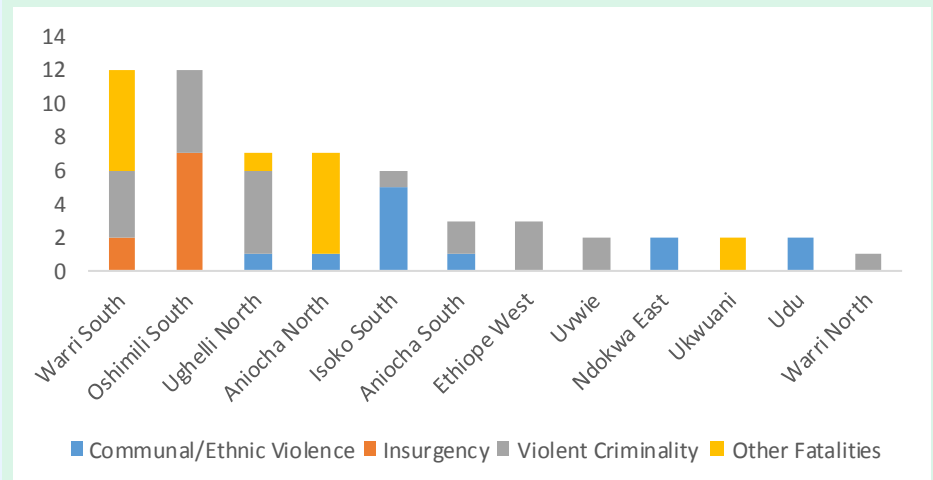

## Prognosis

Although there was a decrease in conflict fatalities in July, there was a rise in violence in the state, particularly militancy and counter-insurgency operations by the security forces. Peace Agents must monitor the situation closely and respond appropriately.
